TECH STACK & TOOLS

- Languages
JavaScript, TypeScript, Python, Kotlin, Java

- Backend & Databases
Node.js (Express.js, Nest.js), MongoDB, Redis, SQL (PostgreSQL), DynamoDB, Snowflake, DBT

- Frontend Technologies
React, Next.js, Redux, HTML, CSS, Tailwind, GraphQL

- Cloud & DevOps
AWS, Terraform, Docker, K8S, Bitbucket Pipelines

- Development & Collaboration
Git, Unit & Integration Testing, Agile Tools (Jira, Monday, Asana)

PERSONAL SKILLS

Team player
Autodidact
Responsible
Fast learner
Easily integrated

LANGUAGES

Hebrew - Native
English - Proficiency

MILITARY SERVICE

Combat Commander | Paratroopers Unit IDF
2019 - 2021

ABOUT

Full Stack developer with 4 years of hands-on experience designing, building, and deploying scalable web applications. Proficient in modern frontend and backend technologies, with deep expertise in AWS, microservices, and CI/CD. Known for solving complex problems efficiently, optimizing performance and leading clean, maintainable development in agile environments.

WORK EXPERIENCE

Eikona

Full Stack Developer | 2025 - present

- Designed marketing automation using cutting-edge generative AI, driving a 15% revenue uplift in ongoing campaigns.
- Led the development of new analytics dashboard UI while expanding the current UI to support all customer marketing workflows.
- Expanded marketing platform integrations to enable accurate, large-scale automated delivery of AI-generated variations, supporting 2 million sends per dispatch.
- Architected complex integration tests system to ensure robustness and stability.

Tech: Next.js, React, GraphQL, AWS, Terraform, SQL, Snowflake, DBT

Curiosity Robotics

Full Stack Developer | 2023 - 2025

- Designed and developed microservices to handle robot functionalities, including a dedicated module for user-robot interactions.
- Optimized SQL database and implemented an efficient DAO layer, improving runtime performance.
- Spearheaded frontend development with React and Tailwind, focusing on clean architecture and maintainability.
- Reduced content download times by 30% and eliminated backend failures through strategic performance planning.
- Built and maintained CI/CD pipelines with Bitbucket, automating testing and deployment workflows.

Tech: Kotlin, Python, Terraform, SQL, AWS, React, Tailwind

Moveo Software

Full Stack Developer | 2022 - 2023

Freight Forwarder Company's Digital Platform

- Developed backend architecture, including server, migration logic, and database structure for a high-scale user platform.
- Built a shipping system that reduced customer service calls by 50% by streamlining complex operations.
- Deployed and managed cloud infrastructure on AWS using Terraform.

Tech: Node.js, NestJS, React, SQL, AWS, Terraform

MVP Project for a Wildfire Forecasting and Forest Monitoring Startup company

- Customized ArcGIS map service for user interaction and data visualization.
- Built a dashboard for user area management and real-time map updates.

Tech: React, Redux, SCSS, GraphQL, ArcGIS

EDUCATION

The Open University Of Israel

B.S. Computer Science Student | 2023 - Present

- Current GPA: 90/100

Cyber4s program by Scale-Up Velocity

Scale Up Velocity | 2021 - 2022

- An elite Full Stack development program that is intended for ex-combat soldiers.
- Intense 6-month bootcamp covering modern full stack development tools - Engaged in all stages of the development life cycle.

Leo Baeck High School Haifa

- 10 matriculation units in Computer Science (Java, Functional Programming and AI Programming) with a score above 90.
- 5 matriculation units in Math and Physics.
